**GOVERNMENT OF PUDUCHERRY
DEPARTMENT OF REVENUE AND DISASTER
MANAGEMENT (SURVEY, SETTLEMENT
AND LAND RECORDS)**

(G.O. Ms. No. 4, dated 12th August 2011)

ORDER

The present system of Land Records Administration do not have the inbuilt mechanism of automated and automatic process of updation due to handling of records/processes by multiple offices with lack of co-ordination among the Registration, Revenue, Survey and Taluk Offices. The traditional methods of surveying the lands is time consuming and there are gaps among the records being maintained in the Offices of Revenue, Registration, Survey and Taluk Offices.

2. To avoid the above drawbacks, the Government of Puducherry have decided to implement the Centrally Sponsored Scheme, namely, National Land Records Modernisation Programme (NLRMP). The objective of the NLRMP is to develop a modern, comprehensive and transparent land records management system in the country with the aim to implement the conclusive land-titling system with title guarantee, which will be based on four basic principles, i.e., (i) a single window to handle land records (including the maintenance and updating of textual records, maps, survey and settlement operations and registration of immovable property), (ii) the "Mirror" principle, which refers to the fact that cadastral records mirror the ground reality, (iii) the curtain principle which indicates that the record of title is a true depiction of the ownership status, mutation is automated and automatic following registration and the reference to past records is not

necessary, and (iv) title insurance, which guarantees the title for its correctness and indemnifies the title holder against loss arising on account of any defect therein.

3. The following is an outline of the components and activities to be taken up under the NLRMP:

I. Computerisation of land records :

(a) Data entry/re-entry/data conversion of all textual records including mutation records and other land attributes data.

(b) Digitisation of cadastral maps.

(c) Integration of textual and spatial data.

(d) Taluk, sub-division/district computer centres.

(e) State-level data centres.

(f) Inter-connectivity among Sub-Registries, Survey, Settlement and Taluk Offices.

II. Survey/re-survey and updating of the survey and settlement records (including ground control network and ground truthing) using the following modern technology options :

(a) Pure ground method using total station (TS) and differential global positioning system (DGPS).

(b) Hybrid methodology using aerial photography and ground truthing by TS and DGPS.

(c) High Resolution Satellite Imagery (HRSI) and ground truthing by TS and DGPS.

III. Computerisation of Registration :

(a) Computerisation of the Sub-Registrar's Offices (SROs).

(b) Data entry of valuation details.

(c) Data entry of legacy encumbrance data.

(d) Scanning and preservation of old documents.

(e) Connectivity of SROs with Survey, Settlement and Taluk Offices

IV. Modern record rooms/Land records management centres at taluk /sub-division / district level.

V. Training and capacity building :

(a) Training, workshops, etc.

(b) Strengthening of the survey and revenue training institutes.

VI. Core GIS :

(a) Village index base maps by geo-referencing cadastral maps with satellite imagery, for creating the core GIS.

(b) Integration of three layers of data: (i) Spatial data from aerial photography or high-resolution satellite imagery; (ii) Survey of India and Forest Survey of India maps; and (iii) GIS-ready digitised cadastral maps from revenue records. Once the basic plot-wise data is created, seamless integration would be possible for micro and macro-planning and other relevant applications.

VII. Legal changes :

(a) Amendments to the Puducherry Survey and Boundaries Act, 1967.

(b) Amendments to the Puducherry Settlement Act, 1970.

(c) Amendments to the Registration Act, 1908.

(d) Amendments to the Indian Stamp Act, 1899.

(e) Other legal changes.

(f) Model law for conclusive titling.

VIII. Programme management :

(b) Core Technical Advisory Group in the Union territory of Puducherry.

(c) Programme Management Unit (PMU) in the Department of Revenue and Disaster Management.

(d) Information, Education and Communication (IEC) activities.

(e) Evaluation.

4. The Government of Puducherry will implement the programme with technical and financial supports from the Department of Land Resources, Government of India.
